Amavasyant Calendar

We are pleased to release the 2011 calendar based on Hindu dharma shastra and drika siddhanta. This calendar is specially prepared for the Greater Vancouver area, and it may not be applicable in other parts of the world. All time presented here is adjusted for daylight saving time.

Calendar Types: There are two main types of calendars. One is the Solar Calendar which is used in Tamilnadu, Orissa, Bengal, and Kerala. The other is a Luni-Solar Calendar based on Chandramasa. In the Luni-Solar calendar there are two types: Amavasyant - months ending in Amavasya; and Purnimant - months ending on Purnima. The Amavasyant is used in Gujarat, Maharashtra, Karnataka, Andhra Pradesh, Tamilnadu & Kerala (along with Solar Calendar). The Purnimant calendar is used in North India.

Tithi: In the lunar calendar the moon takes a month for each revolution around the earth. The lunar calendar is divided into two groups called Pakshas. The first one is called Krishna Paksha (or dark fortnight) which is when the moon is waning. The second is called Shukla Paksha (or bright fortnight) which is when the moon is waxing. Each paksha is divided into 15 thithis. The first 14 thithis are the Sanskrit numbers from 1 to 14 (Prathama, Dvithiya etc). The 15th thithi of Shukla Paksha is Poornima (full moon) & the 15th of the Krishna Paksha is Amavasya (moon is not visible as it is closest to the sun). So a lunar month consists of 30 thithis and each thithi then corresponds to the time taken by the moon to move 12 degrees, with respect to the sun. Krishna Paksha tithis are in the darker color with dark background and Shukla Paksha tithis are mentioned in the red color with white background.

Nakshatra: There are 27 Nakshatra (constellations) in the Zodiac. A Nakshatra is the zodiac constellation in which the moon is found on the particular day. Nakshatras are in *italics*.

Timings listed in the Calendar: The times listed after a Thithi & Nakshatra are the times at which the Thithi or Nakshatra ends. The panchanga uses the Vedic definition of a day, i.e., a day starts with sunrise and ends with the subsequent sunrise. Thus, a thithi with a time of 29:00 indicates that the thithi ends before the next sunrise. According to the western calendar, this means that the thithi ends at 5:00 AM (29:00 – 24:00) on the next day. Hence 24:00 means 00:00 hours of the next day, 25:00 means 1:00 AM of the next day, 29:00 means 5:00 AM of the next day. This is standard for any panchangam.

How to read the panchangam:

- The time next to the tithi and nakshatra is the time when it is going to end. If tithi or nakshatra ends after midnight but before next sunrise the end-time will have a value greater than 24 hours. To get actual time, please subtract 24 from the time. The English date and day will be changed after midnight but not so for the Indian date and day. Indian day/date does not change at midnight 0:00 hours and it is from one sunrise to another sunrise. e.g. Trayodashi 08:18. This means Trayodashi ends at 8 hours 18 minutes.
- The time next to the nakshatra indicates when it is going to end. The same rules for tithi timings apply to nakshatras as well. E.g. Rohini 09:02. This means Rohini nakshatra ends at 9 hours, 02 minutes. Nakshatra is also known as a Star. This way you can find your child's birth star.
- The time for Sun's samkramana is when sun will enter that rasi or sign on that day. e.g. Makara 4:36 means Sun is entering Makara rasi at 4 hour 36 minute.

Uttarayana / Dakshinayana: The season occurs based on tropical sun (without ayanamsha). This is due to earth's tilt of 23.45 degrees. The earth circles around sun with this tilt. When the tilt is facing the Sun we get summer and when the tilt is away from the Sun we get winter. Because of this tilt it seems like the Sun travels north and south of the equator. This motion of the sun is called Uttarayana – The sun is moving towards North and Dakshinayana the sun is moving towards South. This motion of the sun moving towards the north is called Uttarayana. When it is moving towards the south it is called Dakshinayana. This causes rise to seasons. They are dependent on equinoxes and solstices.

There is a common misconception that Makar Samkranti is the Uttarayana. This is because at one point in time Sayana and Nirayana Zodiac were same. Every year equinoxes slides by 50 seconds due to precision of equinoxes, giving birth to Ayanamsha and causing Makar Samkranti to slide further. As a result if you think Makar Samkranti is Uttarayana then as it's sliding it will come in June after 9000 years. However Makar Samkranti still holds importance in our rituals as a Samkranti. All Drika Panchanga makers will use the

position of the tropical Sun to determine Uttarayana and Dakshinayana. Hence January 14th isn't Uttarayana. Actual Uttarayana occurs on December 21st/22nd of every year.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like RahuKalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Notes: To find auspicious time one need to avoid inauspicious times like Rahukalam, Yamagandam, Gulikai, Durmuhurtham and Varjyam times. Abhijit Muhurtha and Amritkalam times are good times. If the times in Abhijit muhurtha and Amritkalam times are overlapped by inauspicious times we need to remove inauspicious times and use only auspicious times, after removing inauspicious times from Abhijit muhurtha and Amritkalam times.

Dhanurmasa Starts from 16th December 2011 till Makar Samkranti of 2012. The importance of Dhanurmasa is mentioned in the Dhanurmasa Mahatmya of Pancharatragama, Agneya Purana and also in a scripture called Smruti Muktaavali. Worshipping Lord Mahavishnu in early morning hours is considered very auspicious. There is a belief that worshipping Lord Vishnu on a single day during Dhanurmasam is equal to worshipping him for thousands of years.

Differences in Festival dates between India and Canada

Pundit Mahesh Shastriji

**Panchang Ganitha and Siddhanta
mypanchang.com, seattlepandit.com**

The Indian Calendar/Panchangam is used everywhere where Hindu people live. I even see people posting, "I want pambu Panchangam, but I live in the USA and it is not available". The question then arises: "Can Indian Panchangam be used outside of India?".

People usually align the Hindu festivals with the English dates based on the Indian calendar. They then think that if an Indian calendar says "Janmasthanmi" on a certain date, say September 2nd 2010, then it will appear as September 2nd everywhere in the world. The USA is 10:30 to 15:30 hours behind India, so some people will think it will also come the next day in the USA, i.e. September 3rd 2010. They also argue that their family priest in India has told them to celebrate on this particular date and according to him the Indian calendar will apply to all places in the world. This is a completely wrong assumption.

The English date and day (Sunday, Monday, Tuesday etc..) changes at midnight; whereas the Hindu date (or Tithi) and day does not change at midnight. Hindu days change at Sunrise. All days are from one Sunrise to another Sunrise. Sunday will start at one Sunrise and end at the next Sunrise.

The Hindu date (or Tithi -- depending on the position of the Sun and Moon at any given time) changes as celestial bodies move. It can change anytime between two Sunrises. That is to say that if Prathama Tithi ends today at 23:02 it does not mean that Dwitiya Tithi will end tomorrow at the same time. It can end at 18:00, 18:09 or 28:27 (anytime after 24 means after midnight but before the next Sunrise).

Now what's the Hindu date (Tithi)?

It is simple. A Tithi is a lunar day, or the time it takes for the longitudinal angle between the Sun and the Moon to increase by 12°. Tithis begin at varying times of day and vary in duration from approximately 19 to 26 hours. So the maximum distance between the Sun and the Moon can be 360 degrees. If you divide them by 12 degrees that gives you 30 equal parts. This means that we have 30 dates in the Hindu calendar divided between the bright half (Shukla Paksha, Waxing Moon), and the dark half (Krishna Paksha, Waning Moon).

Panchangam contains two types of calculations. One is based on the local coordinates like longitude and latitude (Sunrise, Sunset, Moonrise, Moonset, etc), and the other is based on geocentric planetary positions.

Sunrise, Sunset, Moonrise, Moonset times are always calculated for each and every place on the Earth. Local Sunrise, Sunsets are used to find the daily Rahukalam, Yamagandam, Gulikai, and Durmuhurtham times.

The other set of calculations are calculated from the center of the Earth (geocentric). The positions of heavenly bodies are calculated from the center of the Earth and hence they are geocentric. The planetary positions are first calculated from the center of the Sun (heliocentric) and then using the spherical trigonometry they are converted to the center of the Earth (geocentric). The Tithi, Nakshatra, Yoga, Karana and daily planetary positions are based on the positions of the Sun and Moon in the heavens and they are part of the astronomical phenomenon. These are astronomical phenomenon which happen instantly at the same moment on Earth, and hence the Tithi and Nakshatra will end at the same time all over the world. We have to, therefore, convert them to the local standard time of the specific country of interest. When an eclipse occurs and is visible all over the world, the time of occurrence is converted into each country's local time zone. The planets do not wait for Sunrise or Sunset at the particular place. They just keep moving, like Earth is moving around the Sun.

These planetary positions of the Sun and the Moon are computed based on the local time (longitude, latitude) converted to the Universal Time. The Tithi end time is also calculated in the Universal Time which is then converted to the local time of the place. The planets are calculated from the center of

the Earth and their positions at the given time will be the same all over the world. In the same way, whenever any celestial event occurs we need to convert it to our local time zone. Indian Panchang makers convert this to Indian time. The same way we need to convert it to our time zone for America (PST/PDT, CST/CDT, MST/MDT, EST/EDT). After adding the time difference we get the resulting English date and time when they end. Hence, when the calendar is made for India the date they mention is when that Tithi will end as per the English date in India. If we take the same date and time use it anywhere in the world as it is then we will have wrong results.

For example:

On October 17th 2008 the Ashwayuja (Ashwin) Krishna Paksha/ Poornimant Kartik Krishna Paksha Tithi Tritiya ends at 16:39:21 Indian Standard Time, and Chaturthi starts. That means at 16:00 hours there is Tritiya still prevailing in India. Now on October 17th 2008 in Vancouver, WA at the 16:00 hours we won't have Tritiya at that time. We already have Chaturthi started. Planets keep on moving.... 13 hours have passed and the position of Sun and Moon have changed. So what time will Tritiya end in Vancouver? The time difference is 13 hours 30 minutes (with one of our Daylight Saving Time it gives the difference of 12 hours 30 minutes from IST). So, let's subtract 12 hours 30 minutes from the 16:39:21. That gives us 04:09:21 AM on October 17th. So on October 17th after that time we'll have Chaturthi Tithi and before we have Tritiya. The same way if Tithi ends at 8:39 AM on September 12 in India it will end at 20:09 PM on September 11th in Vancouver. The same way Western Australia is 8 hours ahead of GMT and hence the Chaturthi will end there at 12:09 PM on September 12th. The planets do not wait for the appropriate Tithi to arrive on some English date at any location in the world. If it did we would not have any days and nights (if it were to happen then celestial bodies would remain static in sky). The Earth is round and it keeps moving, so we have days and nights. It does not wait for Tithi or festivals. Time never waits for anyone. It goes on. The Sun does not rise instantly at the same time all over the world. Hence we need to convert the Tithi, Nakshatra, Yoga, and Karana time to local standard time. Now we know what time a given Tithi ends, so now it is time to decide festival dates for each region.

How festivals are determined?

The usual rule to observe a festival for a particular day, check which Tithi prevails at that Sunrise. Each festival has different rules of observance. For example: Ganesh Chaturthi. Sankathara (Sankshathi Chauth) Chaturthi, Janmashtami, Mahashivaratri, Karwa Chauth, etc... For example Ganesh Chaturthi has to be observed when the Chaturthi Tithi is observed during the 8th/15th part of the dinmana or the 3/5th part of the dinmana. The dinmana is the difference between local Sunset and Sunrise on the same day. If Chaturthi is not prevailing during that period then take the second day. Likewise for the Karwa Chauth and the Sankathara Chaturthi the Chaturthi Tithi must be prevailing during the moonrise time, if it does not prevail then take the day where it prevails during the sunrise. Rules to determine Shradha Tithi are different.

For example, if one Tithi is observed at moonrise in India it may or may not exist during moonrise on the same day in a different part of the world. It may be very well observed on the previous day if you are in America or the next day if you are in Japan, Fiji, Australia and other countries. America is behind India in terms of time. To arrive at the time in India we need to subtract the time from Indian time and hence festivals could arrive a day early in USA but not later. For example if a total lunar eclipse is visible in India at 5:00 AM it will happen on the previous day in the USA.

For these reasons Indian Panchangam you buy in India cannot be used outside of India.

2011 Horoscope

ARIES / Mesha (March 21 to April 20): Beginning of the year guru will give you some grief with respect to your health, and increased expenditure. Your financial gains will continue in the first three months. You'll continue to work hard and your health will suffer as a result. Next three months April, May and June your expenses will rise, troubles will increase but working hard will ease these problems with the help of Shani dev after mid May and will continue till June. You might have to pay some money to government agencies in the first half of the year. July will also continue to give you more benefits. Increase in competition after sept 10 can be felt but this will be temporary. The power of good result of Saturn can be felt in the later part of this year as Shanidev will be changing rashi in the mid November. Overall this year will be good for your financial gains. Change in job may be indicated in the later part of the year due to Shani transit. Health of maternal uncle needs to be watched.

TAURUS/Vrishabha (April 21 to May 20): Beginning half of the year guru dev is transiting over your benefic houses indicating financial gain till May, after that you need be careful about your health. ShaniShanidev throughout the year will be transiting over your 5th house causing worries related to your children. If you are into heavy stock market and gambling then here is the red flag for you. Be watchful. In the midst of some gain in the first part of the year the second part will bring more expenses. However you are facing some hard challenges on expenses front from the beginning of the year but some financial gains with intervention from guru kept your boat going. Rahu will be transiting over you 7th house in the second half which will cause you problems with your spouse and family relations. If you have any government notices please do not ignore.

GEMINI / Mithuna (May 21 to June 20): You need to be watchful of your work in the first half of the year. Gurudev transiting over your 10th house could bring some changes at work which may not be pleasing to you, but Rahu's transit will ensure you still have a job. Don't lose your confidence, and temper. Keep working hard and your hard work could gain you some gains with respect to new challenges, promotion, etc in the 2nd half. Your Saturn throughout the year is in the 4th house hence mother's health needs to be very careful. Those who are students are advised to make sure to work hard and check exam schedules and dates and times, else you could lose one year. Saturn will create some unrest for you but if you work hard it shouldn't give you much trouble. There might be some additional worries related to your home and property expenses. The second half of the year your expenses will increase. This year isn't good for your stock market, or gambling. Be watchful.

CANCER / Karka (June 21 to July 22): Guru transiting over your 9th house could gain you some additional money, even help of superior, bosses. Work hard to make impressions on your superiors. Shani transiting over your benefic house throughout the year ensures continuous gain till the end of year. Even Rahu's transit over benefic house brings more good news for you. However in the second half of the year gains you always had could slow down. Guru moving to your 10th house demand more attention from your work in the later part of the year however Saturn will ease things but you need to work hard. Rahu who was giving you good gains in the first half also changes sign in July bringing some expenses. The month of December will be interesting as Saturn who was protecting you so far is changing sign in mid November and with that protection gone the year end could bring more troubles at work.

LEO / Simha (July 23 to August 22): The Last part of saturn's sadesati is already causing some expenses, troubles at work, slow work. To add to trouble Guru will continue to give you some troubles, expenses till May. Hence till May its double jeopardy of troubles for you. Rahu has already joined this equation till July hence triple jeopardy of troubles in the first half of the year. The second half will bring some relief with guru changing its sign to aries causing some financial gains. Help that you never had from your boss or mentor will be easy now. However, Shani's last part will make you work hard. Although you may experience some gains but life is not yet that easy. Your health will cause some troubles in the second part. The things will ease financially after Shanideva changes rashi to tula in mid November. After that Shani will be very easy on you. Worship of Shanidevata, hanuman chalisa is advised.

VIRGO/Kanya (August 23 to September 22): Guru's transiting over your 7th house in the beginning of the year till the first half give you gain of respect. Those who are single could get married before May. Shani devta who is transiting over your lagna gives you ill health and the second part of the year will show more of that. Rahu will be transiting over your 3rd house in the second part of the year indicates sudden gains. Guru's transit over your 8th house gives you some unplanned expenditures but RRahu's blessings will get resources and some income. Overall this year will be mixed for you. You are into the second part of the sadesati. Work hard but be watchful of your health. Avoid eating cold food, without heating it up.

LIBRA / Tula (September 23 to October 22): Be careful of eating disorders, avoid sugar, fatty foods for the first half of the year. Stomach troubles are indicated till May along with increased competition, and some troubles from hidden enemies. Just keep calm. Don't lose your patience. Shani's transit over you 12th house means first part of sade sati continues this year till mid November. Be careful in what you tell others. Avoid visits to extreme cold places. Guru changing rashi to aries in may means good news for you. The hard work you've done in the past year and the first part of the year will give you some rewards. If you are single you can start looking suitable match now. There is very good chance you could get married. The differences with your family members can increase in the second part as Rahu changes sign in July. Overall be careful of your health, watch your sugar levels. Work out regularly. The second half of the year brings some relief not full relief.

SCORPIO/Vrischika (October 23 to November 22): Guru maharaj is very happy on you this first part of the year. He is showering his blessings to you in terms of increase of a family member in the first part of the year. A birth in the family possible. Shani devata in your 11th house continues the gain given to you by guru graha in the second part of the year. But as you know things don't come cheap. Rahu's transit over your first house could introduce some new troubles and challenges for you. Just be careful in the second part of the year. Worship of durgamata is advised. To add more pain guru is changing rashi in May and hence combine guru and RahuRahu could bring some health issues and trouble with enemies. Shanidevata changing rashi in mid november. Last part of November and December whole month you need to be very careful at the same time you'll enter into Shani maharaj's sadesati period.

SAGITTARIUS / Dhanu (November 23 to December 22): Your rashi lord throughout the year will be very good for you. Proper investment in stock market or other kind of planning is advised after May. First part is also very good. You can buy 6.37 carets yellow sapphire to get more gains from guru provided guru in your birth chart isn't connected to malefic houses. Birth in the family possible after May. However with all this gains, you will not be satisfied at work front. Shani's transit over 10th house through out the year introduces new challenges, slow decisions could impact your performance. Please be watchful with your relations with your manager. The second part could bring more troubles with respect to health. Rahu's transit over 12th house isn't very good sign for those who have chronic illness or remain sick all the time. You'll have mental tension. Do you know that popular saying, "When things are bad don't make it worst". Keep your clam. Worship goddess durga and your rashi lord guru maharaj to avoid ill effects of Rahu in the second part of the year.

CAPRICORN / Makara (December 22 to January 19): Those who didn't make any change of residence of places or city it's possible to have before may. After that guru maharaj transiting over your 4th house gives you good financial gains. Possibly you can buy a new home. Shanideva transiting over your 9th house gives you kind of mental unrest and worries. This will increase in the second half of the year. I will advise you to chant hanuman chalisa daily 3 times a day for mental peace and prosperity. Even you are not having good luck with relations with your manger. Your father's health could add more worries in this year. Rahu transiting over your 12th house till July adds to this mental unrest and worries. Things will get better after July with respect to Rahu will give you material gains but you still need to work on your personal skills.

AQUARIUS / Kumbha (January 20 to February 18): Guru will continue to give gains till May. More financial gains expected till May. But at the same time your health continues to give you worries which will increase in the second part of the year. Rahu who is very good in the first part adding to your financial gains offered by guru is changing sign in July increasing more disputes, differences of opinions with people at work in the second part of the year. Guru changing sign in May over your 3rd house could bring change of place, work, or location. Overall the second part of the year is very tough. You need to work hard on your skills, develop some patience. Worship of durgadevi and lord anjaneya is advised.

PISCES / Mina (February 19 to March 20): Guru transiting over lagna gives you some hidden fear. Meditation, yoga is your best bet for the first part of the year. Shani transiting over your 7th house could give you some travels this year. If you are postponing your travel plans for long time why wait? The second half of the year is the best time to visit places you always wanted to visit. Shanidevata will make things easy for you. What's more the necessary finances can be arranged by guru devata after the mid May. But you will be always worried about your work and other things in the second half of the year. The first part the year you need to work around with differences with people you love and work with. Overall this year is mixed. Worship of RRahu is advised.

For best result please use your moon sign, lagna and the sunrise and combine with your birth horoscope. For more help visit <http://mypanchang.com/astrology>
